

Final Project Proposal: Animal Shelter

I would like to expand the webpage for my Animal Shelter as my final project. This is for an Animal shelter. The primary purpose of our shelter is to rescue and provide shelter for abandoned, stray, lost, or surrendered animals, ensuring their welfare until they can be adopted into permanent homes. I will add a page with photos of animals that belong to classmates, to avoid any copyright laws, as the animals to depict animals in the shelter or are up for adoption. I will also add a page with an application form to become a foster shelter for animals. A donation page will be added with a form as well for anyone who wants to donate money via the website. I will also add a local event page and a page for ways to volunteer at the shelter.
